

## How to Make Easter Cards At Home

Instructions to make Bunny Card:

1. Begin by downloading and printing out the card template on white cardstock. We used 65 lb. cardstock for our cards. Cut out the pieces of the template.
2. Use the inside ears template piece as a pattern and cut out the two pieces from patterned scrapbook paper. A pretty pastel color works perfectly to add a spring touch to the card. Or if you prefer, you can simply color the inside ear pieces with crayon or marker.

3. Glue the inside ear pieces onto the white bunny ears.

4. Fold your card template piece in half along the line to create the bunny face for the card.

5. Add glue to the bottom of your bunny ears and glue them on the back of your bunny card.

6. Cut three sections of white yarn at equal lengths for the bunny whiskers. Add Tacky Glue on the center of the bunny face and glue the yarn on.

7. Glue a pink craft pom in the center of the yarn

8. Add googly eyes to your cute bunny face.

9. Use markers (or crayons) to draw a mouth on the front of your Easter card. pieces to create a fluffy bunny nose for your card.
